KOI AI in one page

The case for governed AI agents, priced on outcomes. Forward it to whoever signs the budget.

WHAT WE DO

- KOI AI puts governed AI agents into production for mid-market companies, integrated with the systems you already run.
- KOI's agent platform does the analysis and build. One senior consultant directs it and is accountable for the result.
- You pay for the outcome you agreed to up front, not for hours. The first prototype is free.

WHAT IT COSTS

	A TRADITIONAL FIRM	KOI AI
WHO DOES THE ANALYSIS AND BUILD	A team of analysts billed by the hour, typically $400–$1,000+ per hour	KOI's governed agent platform, directed by one senior consultant
AI READINESS ASSESSMENT	$25K–$75K over 3–6 weeks at a mid-tier firm	Free self-assessment today; a full agent-run assessment in 2 weeks, from $10K
AI STRATEGY AND ROADMAP	$30K–$90K at a mid-market firm; $150K–$750K at a large firm; 4–8 weeks	4–6 weeks, fixed fee from $25K
FIRST AI AGENT IN PRODUCTION	Quarters, with a dedicated team on the clock; many never leave the pilot	4–8 weeks, first results by week 2–3, from $50K per use case, priced on the outcome
ONGOING AI LEADERSHIP	A full-time Chief AI Officer at $300K+ fully loaded	A Fractional AI Officer from $8K a month, 15–25% of a full-time executive
WHAT YOU PAY FOR	Hours	The outcome you agreed to up front

Traditional ranges are from published 2026 consulting rate guides (Bosio Digital, Elevates, Copilot Experts, Aries Consulting Group). Quotes vary; yours will too.

THE MATH ON ONE PROCESS ILLUSTRATIVE

A 12-person operations team spends half its time on one manual, document-heavy process. Each person costs $75K fully loaded.

Illustrative. The value is time your team gets back, priced at what it costs you today; whether you redeploy it or bank it is your call. It recurs every year; the fee does not. Your numbers come from the assessment.

	Time spent on that process today	6 people, full time
×	Share agents take over	30–60% of it
=	Time freed	1.8–3.6 people, full time
×	Fully loaded cost per person	$75K
=	Value per year, from one process	$135K–$270K
÷	KOI implementation	from $50K
=	**Return in year one**	2.7× to 5.4×
		about 4× at the midpoint

RESULTS FROM ANONYMIZED ENGAGEMENTS

40% fewer front-desk interruptions — HEALTHCARE

31% fewer stockouts — RETAIL

63% less compliance overhead — BANKING & FINANCIAL

51% faster research & drafting — PROFESSIONAL SERVICES

HOW TO START

Free prototype. Describe one task at getkoi.ai and get a working agent within two business days.
